

Cambridge Oct. 2<sup>d</sup> 1825

My Dear Sir,

I have sent by the Packet Echo  
Capt Lovell. the sea chest for Andrew and paid  
the freight, and directed to be put in the Agents  
store till called for. I have put into it a small  
packet directed to you, being your brother's little  
vol. of discourses for my Friend Thomas  
Wazard Esq Beeckman Street, who is re-  
-quested to give it to the Venerable Elias  
Hicks, Verbi Divini Interpreter, Predicatorque.

I wish Andrew to write to me, and give me  
an exact account of his situation, prospects &c &c.  
The weather is delightful & every body well  
as far as I know. I hope you found Mary  
and her little plague as well as usual.  
The President of U. S. arrived here three days ago  
as snug and as quiet as any private man could  
wish. They did not suffer him to pass through Providence without  
considerable noise
