

Boston. Oct. 6. 1849.

Dear Sir,

I beg leave to present to the Museum of the Massachusetts Medical College a set of Typical Skulls, Modelled from the original Crania in the Collection of the Academy of Natural Sciences, Philadelphia. They will, I think, be useful in explaining the peculiarities of form in the different races. A Catalogue is enclosed.

I remain, very truly, yours.

Dr. Jackson -

J. C. Warren -

Please to direct the porter of the Medical College to call at my house and get them -
